

Music & the Internet

MUMT301

Gabriel Vigliensoni
Schulich School of Music
McGill University

Plan

- Final project ideas
- DOM and HTML forms/JavaScript
- Mid-term exam

Potential final projects

- Music recommendation site using 3rd-party APIs
- Music playlist maker
- Substantial music composition (20-30 min) strictly using web resources
- Comprehensive comparison of on-demand music streaming services
- History of the recording industry in the age of the Internet
- Statistical / historical analysis of music industry based on web-based data
- Study of international music copyright laws

DOM and HTML forms
